

Köksal Otomotiv

" We are in the ROOT of business "

2024

Turkey

INTRODUCTION

Köksal Otomotiv started its activity as a spare part marketing company in 1975 and became a professional enterprise in import and export in a short time.

Köksal Otomotiv has taken its place as a leading company in the sector by having high stock capacity to meet customers' needs just in time.

By analyzing well new strategical targets with its experience in the sector, Köksal Otomotiv established its first tooling department to produce spare parts in 2002.

In a short time, Köksal Otomotiv started to produce their own products by increasing mould production capacity within international quality and standards.

By applying multi-functional production process, Köksal Otomotiv has been producing plastic exterior parts mostly for european car brands.

Köksal otomotiv added vehicle and machinery filters' plastic components into product range in 2008 with its flexibility and experience in production.

Focusing on customer satisfaction, Köksal otomotiv started to produce plastic parts of air, oil, fuel and cabin filters and polyurethane casting molds with the same quality standards.

Köksal otomotiv offers new solutions by meeting different demands in the spare parts and filter sector with its advancing technology, machinery park and expertise in mold production.
